WHEREAS the City of Kingston has potentially 20,000 citizens without the services of a family doctor;

AND WHEREAS that, while the lack of family doctors in Kingston is a serious community problem, the number of 20,000 is based on anecdotal evidence or inferred from studies conducted for other purposes;

AND WHEREAS the inability to accurately quantify the number of citizens without a family doctor is impeding the City's and KEDCO's ability to plan and manage the recruitment of family doctors since having an accurate baseline doctor-patient ratio for Kingston would help the process of Kingston seeking designation as an underserved area with the Ministry of Health, enable the accurate projection of the number of physicians needed, aid in formulating the recruitment-marketing plan needed to alleviate the problem, and create the basis for information tools to measure the success of our recruitment process;

BE IT RESOLVED THAT the issue of implementing a plan to quantify the number of citizens without a family doctor be referred to City and KEDCO staff for a report to Council for consideration for the City's and/or KEDCO's 2008 operating budgets.

AND WHEREAS KEDCO finds that the current lack of cash or equivalent incentives available to offer to prospective family doctors is seriously undermining the City's ability to attract new family doctors;

THEREFORE BE IT RESOLVED that City staff in conjunction with KEDCO research and report to Council on a family doctor recruitment support plan that would effectively make Kingston competitive in this area for consideration for the City's and/or KEDCO's 2008 operating budgets.
